So Says Commander McCalla After an Inspection

WASHINGTON, D. C., Nov. 15 .- Comnander McCalla, U. S. N., who left Norfolk in charge of the wrecking expedition sent out to float the Marie Teress, which was abandoned and drift ed ashore on Cat island, sent bis report o the navy department this evening. His report was dated Nassau and in

substance was as follows: "The U.S.S. Vülcan and Potomac arrived at the acone of the wreck and s soon as a boat could be lowered I oisted the American flag on the Teresa and then proceeded to make a careful examination of the situation. After complete examination of the vessel and fully appreciating the great interest taken by the American people as to the fate of the Teresa, I regret exceedingly to express that it is hopeless to resene SHOE her. Hobson, Craven, Blow and Crit endon confirm my report. The Teresa lies in from fifteen to twenty-one feet of water, on a rocky reef, with coral reefs and boulders surrounding her, and it is impossible to get near enough to board her. She was driven by the storm in a corner of a reef and on the most dangerous point of the island. In fairly good weather it would be possible for a small tug, drawing ten feet of water, with skillful seamanship, to crawl close under the stern of the Teresa and with a smooth sea to put a line on her and upply power to a wrecking tug to onmp her out. In case of a storm the tug would certainly be swamped. It is shown that when the warship struck the reef the mainmast was driven up and broken off. The tide rises and falls in-

A PECULIAR REMEDY tomothing About the New Discovery

for Curing Dyspepsia

The Rev F I Bell, a highly esteemed minister residing in Weedsport, Cayuga Co. N Y, in a recent letter writes us follows: "There has never been anything that I have taken that has relieved the Dyspepsia from which I have suffered for ten years except the new remedy called Stuart's Dyspepsia Tablets. Since taking them I have had no distress at all after cating and again after long years can sleep well. Rev F

I Bell, Weedsport, NY, formerly, Idal-

Stuart's Dyspepsia Tablets is a remarkable remedy, not only because it is a certain cure for all forms of indigestion, but because it seems to act us thoroughly in old chronic cases of dyspepsia as well as in mild attacks of inligestion or billousness. Λ_{i} person has dyspepsia simply because the stomach Dawes, the comptroller of the currency, s overworked, all it wants is a harm- to attend the banquet to be given to ess, vegetable remedy to digest the food and thus give it the much needed

This is the secret of the success of this peculiar remedy. No matter how had been under discussion, weak or how much disordered the dizestion may be, Stuart's Dyspepsia. Tablets will digest the food whether the that the Paris peace commission will stomach works or not New life and fail in its efforts to agree upon a treaty energy is given not only to the stomach. This opinion is not based upon any spebut to every organ and nerve in the citic information received from Para body. A trial of this splendid medial but rather upon the fact that by withthe will convince the most skeptical drawing from the conference Spain has that Dyspepaia and all stomped troubles nothing to gain and all to lose. It is uncomed by the P. Standers are predoubtedly true that should the Spanpared by the FA Shart Co, of Mar lards adopt this course they would sacsimal, Mich, but so popular has the riffee the indemnity this government is remedy become that Stuart's Dyspepsia fablets can now be obtained at any precipitate trouble for themselves of lrag store at 50 cents per package. Philippioes at This Time-Haggling Over Amount Expected-General Breckenridge Before Investigators.

Washington, Nov. 15 .- Attorney Gen eral Griggs and Secretary Bliss were not present at today's cabinet meeting, hay hight by the New York Chamber of Commerce. The meeting occupied less time than usual, and at its conclusion it was said that nothing of special importance

Administration officials do not shad the opinion expressed in some quarters now disposed to grant, and would also At is bedeved that the United State

at this lime would consent to a eash paynent of from \$29,080,000 to \$25,000,000 rather than to renew the war, but the longer a final settlement is delayed the smaller will be the indemnity. In any event, the president is not disposed to brook unnecessary prolongation of the regotiations, and it is believed has so Inquiry has been made into the character of the projectors of the remarkable syndicate scheme for the purchase of the Philippines for the sum of \$400. that they are irresponsible parties, an it is scarcely to be doubted that the project has been put forward as a means of enhancing the price which the Spaniards might claim justification for denginding \$200,000,000 if they could point to a syndicate ready to pay double that price for the islands. However, this he not led to any modification of the Amer ican demands, and it is probable tha several sessions of the joint commission will be consumed in haggling over the amount of money to be paid over on account of the Philippines.

A board consisting of Naval Construcor J. G. Tawresey, U. S. N., and Carpenter W. F. Stevenson, held a survey the purchasers being Charlie Frye and on the Ailiance. Tuesday, for the de-

partment of construction and repair. There were many bids for the buildbyorak ings at camp Long on Tücsday, and Pay Inspector Foster, U. S. N., had a crowd in his office all the afternoon. It will take some time to make up the list of the awards.

> Building No 1 was withdrawn from the lot since the bids were sent out and this contributed to the confusion.

> Again some bids were received on the entire lot of buildings and others bid only on one.

A good many of the bids were on the cook stoves, in the cook house, many people desiring to get a good range and at the same time a useful souvenir of the Spanish prisoners.

A good sized crowd was present at the opening of the bids.

UNCEREMONIOUS AFFAIR

First Rail of the Hampton and Amesbuty Elecule Road Laid

The first rail of the Hampton and Amesbury electric railroad was laid Fuesday morning. The workmen commenced at Hotel Whittier, and there the first spike was driven. Rapid progress was made during the day and the rails are now laid as far as the 'haunted' house, and the roadbed is constructed as far as Meeting House hill. A gang of about twenty-five men is now employed on the work. It is hoped to get the road in operation by the first of next year, in case fair weather permits.
